Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech., CSE	National Institute of Technology, Patna	7.03	May 2028
Senior Secondary	Jawahar Navodaya Vidyalaya, Jehanabad/CBSE	79.80	March 2023
Secondary	Jawahar Navodaya Vidyalaya, Jehanabad/CBSE	82.00	March 2021

Projects

- **E-Voting System**
  Tools:Java, Object-Oriented Programming (OOP),File Handling, Java Collections Framework, Exception Handling,IntelliJ IDEA,Git
  - Developed a console-based E-Voting System to securely manage digital elections and voter participation.
  - Implemented OOP principles such as encapsulation and modular class design to improve code structure and maintainability.
  - Designed Admin, Candidate, Election, and Voter modules with authentication, vote casting, and automated result computation.
  - Integrated file handling for persistent data storage, ensuring reliable data management across sessions.
  - Applied exception handling to enhance system stability and reduce runtime errors.

- **Weather Forecast Full-Stack Web Application**
  Tools: Tech Stack: MongoDB Atlas, Express.js, React (Vite), Node.js, JWT, OpenWeather API, Axios, Git
  - Developed a full-stack web application using MERN architecture to provide real-time weather updates.
  - Implemented secure user authentication using JWT and bcrypt with protected API routes
  - Integrated OpenWeather API to fetch live weather data based on user input.
  - Designed RESTful APIs and connected MongoDB Atlas for user data and search history storage.
  - Built responsive frontend using React and Axios for seamless backend communication.

Skills

- **Programming Languages**: C,C++,java,Python,SQL
- **Technologies**: HTML,CSS,Javascript,node.Js,express.Js,react,Js
- **Tools**: VS Code,Git,Github
- **Databases**: MySQL,MongoDB
- **Soft Skills**: Problem Solving,Teamwork,Communication

Achievements

- Smart India Hackathon (SIH) 2024 — Team shortlisted in institute-level internal round
- Built a Java E-Voting System with secure login, automated results, and persistent data storage.
- Developed a full-stack MERN Weather Forecast app with secure authentication,API integration,and responsive UI
